## Journal Magic

Your Dreamfruit Journal Magic for Earthlings was created with colorful travelers in mind. If you are the one in the meeting with the three kinds of sticky-notes and a small trove of markers and colored pens, then you already know that we are your people.

You may already have tools and materials you love for journaling, so this list is really just a menu of some of my personal favorites. At the end of the day, all you really need is a pen and your magic journal.

You are welcome to visit the [Dreamfruit YouTube channel](#) for journal-magic inspiration, or go free range and see what you discover.

As always with Dreamfruit, play to your level and enjoy the journey!
